

Ernoporus tiliae (Bast bark beetle)

Full report outputted on the 31/07/2003 08:44:57

1. Status of the habitat / species

Please give your most accurate assessment of the status of your species or habitat for the UK and for each country. Leave the row blank where the species or habitat does not occur in that country.

	Amount:	Units:	Year:	Accuracy:	Reference for data:
UK	18	Sites/ Populations	2002		A B Drane 2002 Report to FC
E	16	Sites/ Populations	2002	Partial or sample survey	A B Drane 2002 Report to FC
NI					
S					
W	2	Sites/ Populations	2002	Informed guess	A B Drane 2002 Report to FC

Information originally entered by Paul Barwick on Friday, December 20, 2002
Information last changed by Paul Barwick on Friday, December 20, 2002

2. Trend in Biological Status

Please give your best estimate of the current trend for your species or habitat for the UK, and each appropriate country, using the following categories. Please give an estimate unless there is absolutely no information on which to assess status.

	Trend:	Accuracy:	Reference for data:
UK	Not know n		
E	Stable	Partial or sample survey	A B Drane 2002 Report to FC
NI			
S			
W	Not know n	Informed guess	as above

Information originally entered by Paul Barwick on Friday, December 20, 2002
 Information last changed by JNCC on 03 April 2003

3. Status of knowledge

To what extent is our scientific knowledge of the habitat / species (e.g research information, autecological knowledge, knowledge for effective re-introduction or habitat restoration/re-creation) sufficient to deliver the plan targets?

Please give an assessment for the UK overall but if there is significant difference in knowledge between different countries this should be noted.

Status of knowledge: Knowledge sufficient to make some impact, but more research needed.

Notes:

Ecological requirements known. Partial survey to date may give underestimate of distribution.

Information originally entered by Paul Barwick on Friday, December 20, 2002
Information last changed by Paul Barwick on Friday, December 20, 2002

4. Progress on targets

Each of the revised targets from the 2001 Targets Review is listed below.

For each one please give a qualitative assessment of progress for the UK and each country. You can also enter quantitative information on progress by entering data in each of the target boxes and entering the current amount in the amount box. For more information see Help.

T1: Maintain the number of sites occupied by the species

Target start date:

1999

Target end date:

ongoing

Target units:

Sites/ Populations

	Progress	Target	Current	Accuracy	Monitoring
UK	Some progress (behind schedule) ▼			Partial or sample survey ▼	No ▼
E	Some progress (on schedule) ▼		16	Partial or sample survey ▼	No ▼
NI	▼			▼	▼
S	▼			▼	▼
W	No progress ▼			Informed guess ▼	No ▼

T2: Increase the size of the sites which are occupied by the species

Target start date:

Target end date:

Target units:

	Progress	Target	Current	Accuracy	Monitoring
UK	No progress ▼			▼	▼

E	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
NI	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
S	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
W	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Information originally entered by Paul Barwick on Friday, December 20, 2002
Information last changed by Paul Barwick on 23 December 2002

5. Current factors affecting the habitat

When your plan was published the factors (threats) that were thought to be causing loss or decline were listed (in section 2). Re-assessing the current situation may help prioritise actions for your species or habitat. In addition, this enables identification of the main threats to biodiversity across all plans. It is useful to assess whether the importance of different factors is changing and whether there are new issues emerging.

The threat section from the original plan is duplicated below, and a first attempt at categorising the threats has been made. Please confirm that you agree with the categorisation of the original threats identified in the plan (by deleting any wrongly categorised threats and adding the correct category). Please also add to the list any significant threats that have emerged recently, being mindful of environmental issues that have increased in profile or been recognised since plan publication (e.g. climate change). Once you are happy that the list contains all the threats identified in the published plan together with any new ones, please rank them in order of severity (1= highest threat). If the situation has changed and one of the published threats is no longer significant, please leave this in the list but give this rank = 0.

Current factors affecting the habitat from the original publication:

2.1 Decline in coppice as a regular management regime.

2.2 Loss of old lime woodlands.

2.3 nbsp; Removal of fallen and dying timber.

Keyworded factors:

To add factors click the add button, to delete factors check the delete box and then click the delete button.

Delete:	Rank:	Keyword:
<input type="checkbox"/>	1	Habitat loss / degradation - woodlands/forestry Decline of woodland coppicing / pollarding
<input type="checkbox"/>	1	Habitat loss / degradation - woodlands/forestry Lack of dead wood

Information originally entered by Paul Barwick on 23 December 2002

6. Constraints (optional)

Select the three most significant constraints to achieving the targets of the plan, and indicate the order of priority (1-3 with 1 being the most significant constraint). Only include constraints that are acting as a real blockage to delivering the plan targets or leading to a substantial delay in their delivery. For each constraint, please indicate whether you feel that it is within the ability of the lead partner or steering group to resolve the constraint.

Constraint 1:

Constraint keyword:

Research, survey and information | Baseline survey - required

Country:

UK E NI S

W

Solution:

Solution type:

Undertake habitat/species survey

Survey / monitoring

Able to resolve:

Constraint 2:

Constraint keyword:

Country:

Species and habitat management | Woodland / forestry management - causing problems

UK E NI S
 W

Solution:

Solution type:

Forestry Commission policy to promote coppicing in lime woods required

Legislation and policies

Able to resolve:

Constraint 3:

Constraint keyword:

Country:

Species and habitat management | Habitat fragmentation increasing or too great

UK E NI S

W

Solution:

Solution type:

Target new planting to extend Small-leaved lime woods

Funding and incentive schemes

Able to resolve:

Information originally entered by Paul Barwick on 23 December 2002

7. Steering Group

Please list all organisations that are represented on the steering group for your species/habitat (include all organisations that have contributed either directly or by correspondence within the last 3 years). Where a steering group does not exist please leave this form blank.

To add organisations click the add button, to delete organisations check the delete box and then click the delete button.

Delete:	Organisation:
<input type="checkbox"/>	English Nature
<input type="checkbox"/>	Forestry Commission
<input type="checkbox"/>	Forestry Commission Research Agency

<input type="checkbox"/> Forestry Enterprise
--

Information originally entered by Paul Barwick on 23 December 2002
Information last changed by Paul Barwick on 24 December 2002

8. Other Groups/Organisations

Please list any additional groups/organisations that are actively involved in implementing your action plan. (This is to try to assess which groups are involved where there is no steering group and any additional contributors). If you do not have any other organisations involved, click here.

To add organisations click the add button, to delete organisations check the delete box and then click the delete button.

9. Linkages to LBAPs

a) Which of the following most accurately describes your interaction with LBAPs, up to now?

Little or no contact with LBAPs.	▼
----------------------------------	---

b) If you have been in contact with LBAPs how was it initiated?

▼

c) Irrespective of current contact, how important do you consider LBAP co-ordinated action will be in achieving the targets of the plan? Select from category:

▼

d) If you consider LBAP action to be anything other than unimportant, which of the following forms of engagement do you think would be appropriate? (Note, you may tick more than one category.)

- Indirect contact (e.g. posting information on UKBAP website, sharing work programmes, meeting schedules, articles in Biodiversity News, newsletter)
- Provision of generic information on habitat and/or species (e.g. advice and guidance on habitat/species ecology and management)
- Direct provision of advice (e.g. proactive approach to LBAP, response to consultations from LBAPs, advice on LBAP target setting)
- Reciprocal attendance at meetings
- Development of collaborative projects

Other (please specify):

Information originally entered by Paul Barwick on 23 December 2002

10. Successes (optional)

Have there been key successes in the implementation of your plan that should be drawn to the attention of government, the wider BAP partnership, or the public? Please give a brief description (i.e. 2-3 sentences) of up to three successes and allocate a topic area to each of them:

Success 1:

Description:

Country:

Potential habitat (Small-leaved limewoods) identified and access information collated from FC and conservation agencies.

UK E NI S W

Keyword:

Research, survey and information | Habitat inventory compilation - completed or underway

Success 2:

Description:

Survey to locate and record occupied habitat completed to confirm the current status of *E. tiliae*. Presence re-established in most historical (pre-1970) sites indicating that the species is not in decline but is restricted by range and habitat requirements.

Country:

UK E NI S W

Keyword:

Research, survey and information | Habitat inventory compilation - completed or underway

Success 3:

Description:

Country:

<input type="text"/>	<input type="checkbox"/> UK	<input type="checkbox"/> E	<input type="checkbox"/> NI	<input type="checkbox"/> S	<input type="checkbox"/> W
Keyword:					
<input type="text"/>

Thank you for answering the questions. You have not yet completed all of the questions. You can go back and answer the additional ones or edit the ones you have already answered whenever you want.

Sign-off:

When you have completed all of the questions that you are able to, you must sign off your reporting.

I agree that the steering group (if present) have agreed the information in this report and that the following contact point has also signed it off:

Contact point:	<input type="text" value="Forestry"/>	email:	<input type="text" value="paul.barwick@"/>
Your name:	<input type="text" value="Paul Barwick"/>		
Date:	<input type="text" value="23 December"/>
